

## **JOB DESCRIPTION**

### **Junior Production Engineer China**

We, Provado ( [www.provado.de](http://www.provado.de)), are a well-qualified international recruitment and consulting company in Germany and in more than 25 countries worldwide, who works for various companies.

In the present time we have an international client based in Europe who reached a turnover of more than 1 billion € in 2010 with about 10,000 employees worldwide. This client is one of the leading suppliers of power cables in the electricity and energy Industry. We are looking for a qualified person as a Junior Production Engineer for their branch in China.

#### **Main Tasks:**

- Active support of the management (Managing Director, Operations Director, Middle Management) in achieving goals by the implementation of measures to optimize structures, machinery/design and production flow
- Support further professionalization of production planning and control in IT and ERP
- Working hand in hand with other departments, particularly Quality Management, Development and Controlling/Finance
- Compiling of documentations and operator instructions
- Collaboration with the head office in Cologne/Germany, in terms of joint projects and activities, e.g. health & safety, operational risk management etc.
- Reporting line to local Operations Director and group COO

#### **Required Qualifications**

- First practical experience and insight welcome, preferably from up to 2 years experiences in a similar assistant position
- Experience working in European or American industrial companies
- Mastery of contemporary analysis methods and instruments incl. Lean Management
- Ambitious with leadership potential
- Flexible and mobile, international mindset
- Conceptual skills combined with hands-on service mentality

- High level of communication skills, particularly in the context of internal and interdepartmental processes
- Fluency in English and Chinese (Mandarin) is a must

**Education**

- University degree in Engineering (preferably electrical engineering)
- Abroad study will be an asset

**Location:**

- Changzhou/NCL
- Hejian/NCC
- First 2 years located in China. Good chance working in other branches, as well as in Europe (HQ) by good performance.
