Junior Managers Program - Manufacturing in China

Bosch Rexroth AG is one of the world's leading specialists in the field of drive and control technologies. Under the brand name of Rexroth the company supplies customers with tailored solutions for driving, controlling and moving - for industrial applications and factory automation, mobile applications and using renewable energies.

Have you successfully completed or are close to completing your studies abroad?
Do you now want to start your career back home in China?
Would you like to take over executives functions in the near future? Then the China Junior Managers Program is just right for you.

Program information:

- The program takes up to 24 months which are divided in 4 stations of 6 months each
- You get to know different areas of the company in your personalized program
- A station abroad is an integral part of the program
- You will be mentored by a senior manager

Your tasks:

- Planning of maintenance related tasks of all machines which are used for production of gearboxes for wind turbines
- Planning of capacity and capacity improvement potential for maintenance or required equipment, together with production engineers, with IE& Maintenance Planer

Your profile:

- Master majored in mechanics(preferable Germany returnee)
- 2-4 years working or intership in NC machine installation and maintenance area
- Knowledge on metal parts manufacturing process and lean production
- General leadership requirement

ATTENTION: The position is linked to a local Chinese contract ONLY and work location is at Beijing.
