## Junior Managers Program - Research & Development in China

**Bosch Rexroth AG is one of the world's leading specialists in the field of drive and control technologies. Under the brand name of Rexroth the company supplies customers with tailored solutions for driving, controlling and moving - for industrial applications and factory automation, mobile applications and using renewable energies.**

Have you successfully completed or are close to completing your studies abroad? Do you now want to start your career back home in China? Would you like to take over executives functions in the near future? Then the China Junior Managers Program is just right for you.

Program information:

- The program takes up to 24 months which are divided in 4 stations of 6 months each
- You get to know different areas of the company in your personalized program
- A station abroad is an integral part of the program
- You will be mentored by a senior manager

### Your tasks:

- Support and cooperate with other departments in China and Europe like sales, purchasing, quality, logistic, production, etc.
- Monitoring and technical benchmarking of competitors
- Support other design engineers and check drawings and documentations performed by them
- Lead project teams with people from different departments
- Technical support to customers and sales

### Your profile:

- Master degree in mechanical engineering or electrical engineering
- Have experience from 3D CAD systems (preferable Pro/E) up to 2 years
- Have strong communication skills and leadership potential
- Gathered experience in international environment during study, internship or working
- Speak and write fluent English (additional language skills are plus, preferable German)
- Open-minded and a good team player
- Mobile (nationally and internationally)

ATTENTION: The position is linked to a local Chinese contract ONLY and work location is at Changzhou
