Shanghai Jiao Tong University (SJTU) is a top comprehensive university in China located in Shanghai. Established in 1913, the School of Mechanical Engineering has granted over 44,000 degrees, and produced lots of early pioneers in China's modern industry. Through the continuous growth of the century, the school has obtained outstanding accomplishments in various aspects like research output, industry interaction, education and globalization. In 2012, the school has been elegantly appointed as 'Pilot School Program' by State Council of China, through which considerable innovations have been taken to reform the education system and the faculty hiring & promotion procedures. Its annual research funding has grown rapidly in the last decade, reaching 71M USD in the year 2014.

*For further development, we sincerely invite Ph.D. Candidates and post doctors from the RWTH Aachen University (RWTH Aachen ) majored in but not limited to **Mechanical, Power and Energy, Nuclear, Aerospace and Industrial Engineering** to join us. Position requirements, conditions of scientific research as well as personal remuneration will be introduced during the recruiting session.*
